

# SREDNJA ŠKOLA - ZVEČAN

P rvi počeci današnje škole

vezuju se za razvoj same opštine. Srednja škola u Zvečanu je smeštena u istoj zgradi kao i opština Zvečan, poseduje jednu trećinu ukupne površine zgrade i osetan je nedostatak prostora, odnosno školskog dvorišta. Ova škola je ustanova za sticanje opšteg i stručnog obrazovanja za rad i dalje školovanje na nivou trećeg i četvrtog stepena stručnosti.

U srednjoj školi u Zvečanu postoje sledeći smerovi: smer laboratorijski tehničar, tehničar zaštite životne sredine, smer tehničar štampe i smer za ženskog frizera. Škola ima potpuno opremljenu štampariju i laboratoriju, kabinet računara i biblioteku. Hemijska laboratorija je kompletno opremljena za sve vrste laboratorijskih analiza, pored toga škola poseduje i kabinete za fiziku, anatomiju i fiziologiju. Škola ima 220 đaka podeljenih u 11 odeljenja. Školu pohađaju učenici iz Leposavića, severne Mitrovice, a određen broj učenika dolazi i iz Raške.

Direktor srednje škole u Zvečanu Blažo Dragović u razgovoru za Magazin For You kaže da je ova škola ranije bila

direktor Blažo Dragović

Srednja tehnička škola, koja je imala razne tehnološke smerove u skladu sa potrebama kombinata Trepča i da je najpre bila ogranak Tehničke škole iz Mitrovice. Prema njegovim rečima, počela je sa radom 1990. godine kada je formirana opština Zvečan, a potom je 2005. godine preimenovana u mešovitu Srednju školu.

Iako relativno mlada škola, uspeła je za kratko vreme da stekne ugled i za nju danas vlada veliko interesovanje đaka i njihovih roditelja. "Dočekujemo učenike i nastavnike želeći da u njima probudimo osećaj da je škola mesto gde se uči, usvajaju nova saznanja i istine i živi život ispunjen naukom i stvaralaštvom" objašnjava direktor uspeh koji je ova škola stekla za kratko vreme.

Dobro rukovodstvo, stručan nastavni kadar i profesionalna saradnja sa ustanovama u kojima se realizuju vežbe i blok nastava, doprinose rejtingu škole i atraktivnosti zanimanja.

Najveće interesovanje vlada za laboratorijski smer i iz svake generacije izađe po 30 laboranata, koji praksu tokom školovanja obavljaju u zvečanskom Domu zdravlja.

Direktor ove škole objašnjava i da neki smerovi imaju dugu tradiciju, ali da prateći potrebe tržišta rada, škola ima u planu da afirmiše neke nove smerove u budućnosti.

Srednja škola u Zvečanu je od svog osnivanja imala veoma stručan nastavni kadar i odmah se istakla i nametnula svojim kvalitetom, a danas je u njoj upošljena oko 50 predavača. U školi se uči engleski i latinski jezik, a zastupljene su razne vannastavne aktivnosti i sekcije, poput recitatorske, literarne i likovne.

Direktor Blažo Dragović po struci je profesor fizičkog obrazovanja, a kao najveći nedostatak ove škole izdvaja nepostojanje sportskog terena i fiskulturne sale. Nedostatak prostora sprečava ih da izgrade pomenute objekte, a učenici nastavu iz fizičkog obrazovanja izvode u obližnjoj osnovnoj školi. Ipak kako kaže, to ih ne sprečava da postižu zavidne rezultate u raznim sportovima, poput fudbala i rukometa.

Imaju odličnu saradnju i sa lokalnom samoupravom, gradonačelnikom i Domom zdravlja u Zvečanu, kao i sa mnogim grafičarskim školama i grafičarskim smerovima. Prema rečima direktora ove škole, odličnu saradnju imaju i sa vojnicima KFOR-a, odnosno LMT timovima za vezu, koji ih redovno obilaze.

Na kraju razgovora za naš Magazin, on poručuje čitaocima i đacima da je veoma bitno da se bave sportom, ali i kulturnim stvaralaštvom, "kao i da se trude da kroz obrazovno-vaspitni proces i srednju školu steknu znanja i veštine potrebne za stupanje u radni odnos odmah po završetku školovanja ili nastavak školovanja na nekom od fakulteta ili viših škola".

## Upitnik

### KADA DOLAZITE NA NEKI DOGAĐAJ DA LI STE TAMO DESET MINUTA RANIJE ILI DESET MINUTA KASNIJE?

**Anđela Trajković (15)**

Ne volim da kasnim, tako da uvek volim da dođem malo ranije na zakazani sastanak ili događaj. Ponekad mi se desi da zakasnim, ali retko kad. Poznajem puno ljudi koji stalno kasne i mislim da ne bi trebalo to da rade i dabi trebalo da poštuju tuđe vreme.

**Anđela Trajković (15)**

I don't like to be late, so I always like to come a little earlier to an appointment or event. Sometimes it happens to me that I'm late, but rarely. I know a lot of people who are constantly late and I think they should not do this, they should respect someone else's time.

**Anastasija Vučetić (15)**

Ja nekad poranim, a ponekad zakasnim, mada uglavnom ne volim da kasnim. Za ljude koji stalno kasne, mislim da su lenji i kao da ih mrzi da dođu na vreme. Ipak nemam puno drugara i drugarica koji stalno kasne, a ako i zakasne ponekad nisu to neke velike vremenske razlike. Uglavnom retko kad kasne.

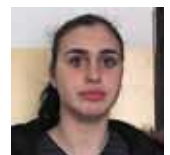

**Anastasija Vučetić (15)**

I am sometimes early, sometimes late, but generally I do not like to be late. For people who are constantly late, I think they are lazy and it seems they don't want to come on time. Still, I do not have a lot of friends and girlfriends who are constantly late, and if they are sometimes, they are not late that much. In most cases, they are not late.

**Anđela Matković (15)**

Više volim da na neki događaj ili sastanak dođem ranije, jer ne volim da ne poštujem ili da trošim tuđe vreme. Moji drugari svi obično dođu na vreme. I članovi moje porodice uvek dolaze na vreme, tako da mislim da je ovo pitanje i stvar vaspitanja.

**Anđela Matković (15)**

I prefer to come to an event or meeting earlier, because I do not like to disrespect or to waste someone's time. My friends usually come in time. My family members always come in time, so I think this is a question and a matter of upbringing.

# ZVEČAN HIGH SCHOOL

The origins of the school date back to the early development of this municipality. The Zvečan High School is located in the same building as the Municipality of Zvečan. It occupies one third of the total building surface, but the lack of space, especially of a school yard, is evident. The school is an institution providing vocational and general education, which prepares students for work or for further, tertiary or higher level education.

The Zvečan High School offers the following courses: Laboratory Technician, Environmental Technician, Print Technician and Female Hairdresser. The school has a fully equipped print studio and a laboratory, a computer lab and a library. The chemical laboratory is fully equipped for all kinds of laboratory analyses. Moreover, the school also has physics, anatomy and physiology labs. The school has 220 students divided into 11 classes. Students from Leposavić and northern Mitrovica attend the school, in addition to a certain number of students who come from Raška.

The principal of the Zvečan High School Blažo Dragović said in a conversation with Magazine For You that this used to be a technical high school, which provided various technical courses to accommodate the needs of the Trepča complex, adding that initially, it operated as a branch of the Technical High School in Mitrovica. According to him, it started operating when the Municipality of Zvečan was established back in 1990, and then it was renamed into a mixed High School in 2005.

Although a relatively young school, it managed to gain its good reputation in a short time, and today it is very sought-after among students and their parents. "We wish to welcome the students and teachers with the desire to instill in them the feeling that school is a place for learning, acquiring new knowledge and truths, and living a life filled with science and creativity," the principal said, explaining the success achieved by the school in such a short time.

Good management, professional teaching staff, and professional cooperation with the institutions where practical exercises and practical classes are carried out, contribute to the school ratings and to the appeal of vocations offered.

The laboratory course is the most sought-after. In every generation, around 30 young people study to become laboratory technicians, who, during their education, complete their practical classes at the Zvečan Health Center.

The principal went on to explain that some courses have a long tradition, but added that in line with the needs of the labour market, the school plans to promote a number of new courses in the future.

Zvečan High School has had a very professional teaching staff since it was established, and it quickly stood out and imposed itself as a quality institution. Today it employs

around 50 lecturers. In this school, students learn English as foreign language, as well as Latin, and there are various extracurricular activities and activity groups, such as poetry, literary and art.

Principal Blažo Dragović is professor of physical education by profession, and according to him the school's biggest issue is the lack of a sports field and hall. Whereas, lack of space prevents them from building these facilities. Students attend physical education classes in a nearby elementary school. Still, as he says, this doesn't stop them from achieving enviable results in various sports, such as football and handball.

They also have excellent cooperation with the local government authorities, the Mayor and the Zvečan Health Center, as well as with many graphic design schools and courses. According to the school principal, they have excellent cooperation with KFOR soldiers as well, that is, with LMT liaison teams who regularly visit them.

At the end of the conversation with our Magazine, his message for the readers and students is that it is very important to be involved in sports, as well as in cultural creativity, and that "they should strive to use the educational process and high school to acquire the knowledge and skills necessary to start working right after they complete their education, or to continue their university or college studies."

## Questionnaire

### WHAT DO YOU PREFER MORE, ALWAYS TO BE 10MIN LATE OR 10MIN EARLIER?

**Luka**

**Tomanović (15)**

Više volim da poranim, nemam neki poseban razlog za to, ali i u mojoj porodici niko ne kasni.

Ista situacija je i sa mojim drugarima. Poznajem par onih koji stalno kasne, verovatno imaju neke opravdane razloge za to.

**Luka Tomanović (15)**

I prefer to come earlier, I do not have any special reason for it, but no one in my family is late. The same situation is with my friends. I know a couple of those who are constantly late, probably they have some justified reasons for it.

**Lazar**

**Radenković (15)**

Više volim da dođem na sastanke ili u školu ranije.

U školi onda mogu da se spremim za čas. Imam nekoliko drugara koji vole da kasne, možda oni ne vole školu ili im možda stalno kasni autobus. Uglavnom, oni uvek imaju neko opravdanje za kašnjenje.

**Lazar Radenković (15)**

I prefer to come to meetings or school earlier. At school, then I can get ready for the class. I have several friends who like to be late, maybe they do not like school or maybe their bus is always late. Basically, they always have some justification for being late.

**Milos Stanić (15)**

Osobe koje stalno kasne su neodgovorne osobe, one ne poštuju tuđe vreme i potrebe. Iz tog razloga, ja sam od onih koji uvek dođe deset minuta ranije na neki sastanak ili u školu. Poznajem puno onih koji vole da kasne, često mi se dešava da moram da ih čekam, iz toga razloga stvarno ne volim ljude koji stalno kasne.

**Milos Stanić (15)**

People who are constantly late are irresponsible people, they do not respect others' time and needs. For this reason, I am one of those who always come ten minutes earlier to a meeting or to school. I know a lot of those who like to be late, it often happens to me that I have to wait for them, for that reason I really do not like people who are constantly late.
